

**Lee Conservation Commission Work Group Meeting Minutes**  
**August 21, 2023**

Present: Dawn Genes, Catherine Fisher, Anne Tappan, Laurel Cox

The group discussed the treatment proposed by the USDA Natural Resources Conservation Service for the control of invasive species and the maintenance of early successional habitat for the Old Mill Reserve. The plan is for a multi-year treatment with several years of monitoring. Cost sharing at 100% is offered by USDA.

After a full review of the USDA NRCS plan, the group agreed that this is a contract that the Town of Lee should engage in. Dawn Genes will work with the Town Administrator to obtain all the necessary signatures to move forward.

Respectfully submitted: Dawn Genes
